

To All Partners,

Bright Heart Health, a telemedicine service, connects expert professionals with clients through two-way video conferencing on a smartphone, tablet, or computer. The mission is to provide expert care and support to all individuals struggling through telemedicine.

The service provides dedicated programs for substance use disorder, pain, or eating disorders regardless of location, schedule, or finances. Through the use of telemedicine, experts from the field treat each individual fully and provide the support they need.

To begin providing Bright Heart Health's services within New Mexico contact Dawn Abriel at dabriel@brighthousehealth.com or connect patients to 844-884-4474.

More information can be found at BrightHeartHealth.com or the YouTube link below.

MENTAL HEALTH TREATMENT FROM HOME

Clients are treated by a multi-disciplinary team of psychiatrists, therapists, dietitians, and other experts through live, interactive video. Services include individual and group sessions through their computer, tablet or smartphone from the privacy of their home, office, or dorm room. Bright Heart Health is making treatment more convenient, private, and effective by using video-conferencing sessions to connect clients with the best minds in mental health and substance use disorder treatment.

CONVENIENT & AVAILABLE EVERYWHERE

Clinics, but especially hospitals, do not have to wait to get a patient into treatment. Providers simply direct a potential patient to 844-884-4474. Clients receive access to life-saving treatment regardless of location, schedule, or income, from the privacy of their own home, office, or anywhere with WiFi.

Bright Heart Health is accredited by the Joint Commission, reflecting a symbol of commitment to provide quality, safe and effective treatment. Clients are more engaged and receive better treatment when they can receive the highest quality care from the privacy of their own home.

LARGEST NETWORK OF EXPERTS

The Bright Heart Health team is composed of top health professionals from across the country. All staff have a deep experience treating substance abuse and eating disorders. Providers collaborate daily on treatment, and work hard to ensure clients receive effective treatment. Staff come from a diverse background in the field of substance use and eating disorders, including authors, clinical directors, and faculty at major universities. Bright Heart Health provides the most convenient and private treatment available, without having to leave your front door.
